Today Ushers in the District's

CHANGESTHATWILLCOME

New Piscal Year.

Two Departments Transferred from Per-diem System-Increase in the Fire and Police Forces-Extension of Streets and Sewers-New Offices Created.

With the dawn of July 1 began a new fiscal year for the District government, and with it came to the officials the privithings, the funds to meet the requirements favors bequeathed by the recent Congress through the medium of the annual appro-priation bill, including, among other bings, the funds to meet the requirements of an enlarged police force, additional fire service equipment, prospective new school buildings, and the provision of "the needful," by ordinary and extraordinary enactment, for the municipal expenses

for another twelve months. Prominent in next year's disbursements Prominent in next year's disbursements will be the liquidation of the debt incurred by the construction of the forty-eight such and Fourteenth atreet water mains. inch and Fourteenth street water mains, and the material curtailment, if not the total extinguishment, of the debt created by the construction of the Lydecker tunnel.

The item covering these obligations is found on the last page of the appropriation act, and is to the effect that "not exceed-ing \$300,000 of the surplus general revenues of the District, remaining on the 1st day of July, 1896, shall be transferred to the water fund, to be applied to the pay-ment in full of the balance of the principal of the debt incurred for the forty-eight inch and Fourteenth street water mains and in part of the principal of the debt incurred for increasing the water supply as provided in the act of July 15, 1882."

In the sewer department the appropria ion was not as large as the Commissioners desired it to be, yet there is an item of \$25,-000 for constructing the Fifteenth and F streets sections of the F street and Easby's Point intercepting sewer, with authority given to put the same under continuous contract at an aggregate cost not exceeding \$87,000. The sum of \$1,000 is up propriated, also, for a sewer in Fifteenth street, between Columbia road and Keneaw avenue, and authority is given the Com missioners tolay a water main in that street between the points named, if found to be necessary. A GRATUITY.

This item was in the form of a gratuity since it was not asked for by them.

sewers was \$18,000 less than the amount finally estimated for by the Commissioners the sum given being \$75,000. For suburban sewers the department receives \$75,000 which was \$46,000 less than asked

Originally the Commissioners requested \$190,000 for the Rock Creek and B strect intercepting sewer, but this was finally scaled to \$130,000, the amount deemed to be necessary for taking sewage out of Rock Creek, Congress did the rest, by staling the amount more than one-half, appropriating but \$60,000.

The public school system is to be ex-tended and benefited quite as much this year as for any previous year perhaps.

At any rate, the appropriation averages well, and among the most important interests in that department to be served is in the added facilities for high school work. The sum of \$50,000 is appropriated for the purpose of a site for and toward the construction of a new building for the Western Higa School, the total cost of which is limited to \$100,000. The Commissiontion under continuous contract, and this to complete the structure. The Commis-

Fireworks! Other school buildings for which provision is made, and which will be constructed during the fiscal year, are: One new structure and reconstruction of the present building on the site of the Wallach school. \$22,000 being appropriated; one eightroom building and site in the northeast section, \$39,000; for purchase of additional ground and reconstructing the Anthony Bowen school building, \$30,000; one fourroom building in Langdon, \$8,000; one eight-room building, Giesboro, \$21,000; two-room building and site on or near the line of Connecticut avenue extended, \$8,000, and four-room building and site Conduit road. Six thousand dollars are also alloted for reconstructing the Stevens building.

and other new structures provided for, the building inspector has been obliged to secure an addition to his force of draughts for this temporary service having been printed in The Times of several days ago. Three pew appointments were authorized

EXCURSIONS. JULY 4. JULY 4. AT RIVER VIEW.

Saturday, July 4. Grand display of fireworks from the top of the chute at night; music and dancing and other amusements all day and evening. Children, we have plenty of room for you and your fireworks. Come and bring them with you and fire them off.

The steamers Pentz and Harry Randall will make six fiving time at 10 and will make six flying trips, at 10 a.m., 1, 2:15, 3:30, 6:30, and 6:45 p.m., stop-ping at Alexandria at 10:20 a.m., 2:30 and

EAST STORE. 930 and 932 Seventh St. WEST STORE, 1914-1916 Pa. Ave

These are one deputy collector of taxes, already appointed; one assistant inspector of buildings and one deputy inspector of plombing The examination of aspirants for the position last named will be held today at the rooms of the United States Civil

Notable among the school appropriations. naturally recalled on the eve of Independence Day, is the item of \$1,000 placed at the disposal of the trustees for the pur pose of purchasing a sufficient number of United States flags to supply one to each school building in the District. Under special instructions "Old Glory" will be lisplayed in future over each school house in the District on school days and during school hours.

Fifty policemen are to be added to the As stated in this Morning's Times. twenty-one of the number are already installed, and the others will be put into service as rapidly as the Civil Service Commission can supply the eligibles. Beside this increase in the ranks, the police department is to have an additional patrol driver, and \$3,500 is allowed for

idditional patrol boxes and enanging loca tions of old ones. What is regarded with especial gratification among the men in both the police and fire departments is the brand new pro vision for maintaining the respective relief funds. The Commissioners are au-thorized by the act "hereafter," which makes it a permanent provision-"to de

posit with the Trensurer of the United

States, out of receipts from fines in the police court, a sufficient amount to meet any deficiency in the pension funds." -The fire department will have a new epgine house and equipment, with a full complement of men, in the vicinity of North Capitol street and Florida avenue, for which the sum of \$23,000 is appropriated. Beside this, old engine houses are to be repaired at a cost of \$3,500; one new steam fire engine is to be purchased at a cost of \$42,000 hose carriage, \$900; new engine to be substituted for the chemical enginesi Mount Pleasant, and a house, lot and furniture is to be provided for the chemical in the vicinity of Brightwood, for which last mentioned improvement \$15,900 have been

given. The sum of \$3,500 is also supplied to pay the difference between an old engine and a new one in exchange. The health department will expend \$5,000, or so much thereof as may be nec essary, for the enforcement of the act to prevent the spread of scarlet fever in the District, and will buy an additional ambuance for the transfer of per

tagious diseases. pentioned in the list of benefits, may be included the reconstruction of the Blackburn, which is provided for at a cost of \$1,250. The item for the construction and maintenance of wharves and buildings and for other necessary items and services at the harbor front, at an expense of \$2, 600, and the provision for adapting the inner basin on the Potomac flats for a public bathing pool, for which there is a special appropriation of \$4,000. This last im provement will be delayed until the work completed of diverting the Seventeenth street sewage from proximity to the pool IMPROVEMENTS TO STREETS.

The regular appropriations for improve the engineer department, as is well known but a great deal will be accomplished this

The construction of a central heating sta tion at the almshouse hospital is author ized. It is to be provided with boilers piping and necessary appliances for heat ing by steam or water, connection to be made with the dispensary and physicians quarters, operating rooms and the wards numbered from 1 to 7. The almshouse proper is to be painted and repaired at a

cost of \$1,000. Several innovations were introduced through the medium of the last appropriaict, among the most noteworthy of which is the clause in the charity schedule which declares it to be "the policy of the Government of the United States to make no appropriation of money or property for the purpose of founding, maintaining or aiding by payment for services or other wise any church or religious denomination or any institution or society which is under sectarian or ecclesiastical control."

This new rule will prevail from and after the 30th day of June, 1897. A special committee, to be composed of three Senators and three Representatives, was created, also, to investigate as to the relations of all charitable institutions with church or re-ligious or ecclesiastical institutions, and to ascertain whether it is practicable for the Commissioners to contract for the care of the poor and destitute with any of the said institutions within the limitations of the policy defined.

The committee is required to make report of its findings as soon as practicable after the beginning of the next session of Con-gress, including in its report any changes that may be deemed advisable as respects the methods of dealing with the charities, and the reformatory institutions of the District. Sessions of the committee will be held during the Congressional recess.

Another new provision affects the District military. Under it, hereafter, "all leases and contracts involving expenditures on account of the militia shall be made by the Commissioners, and appropriations for the militia shall be disbursed only upon vouchers duly authorized by the Commis-

sioners, for which they shall be held strictly accountable." The transfer of the Industrial Home Sch to District control, under the provisions of the appropriation act, has already been affected, as recently noted in The Times, and the trustees appointed are getting ready to formally assume charge. Respecting the telephone service, the Commissioners are required to report at the next session of Congress" what charges

are made in the District to the public and to the government for the use of the telephones, and the relative charges made operated by underground and overhead wires." From this it is inferred that an investigation is in prospect that may result in decreased tolls.

OPENING CONNECTICUT AVENUE. The Commissioners are also directed to examine into and report upon the proposed extension of Connecticut avenue from Piorida avenue to the District line, with a view to ascertaining the comparative advantages and disadvantages and approximate cost of opening that thorough-fare on a straight extension of the line as now established in the city, instead of opening it on the deflected line now on file. The report is to be made on or before the first day of the next session, and until these points are settled no build-ing permits shall be granted upon ground would be covered by either exten-

graph of the act under the heading of "contingent expenses," the whole cost of maintaining and keeping in order the aboratory and apparatus in the office of the inspector of gas and meters will be hereafter a charge upon the Washington Gas Light Company, and the recorder of deeds will hereafter make no charge for "reporting to the assessor of the Dis-trict, for entry upon the tax books, transfers of real estate, as required by law." This change is made to avoid clerical labor and trouble, as the fees collected were turned over by the recorder to the offector of taxes, and the work amounted to no more than a formality.

A reference to the contingent fund recalls the fact that, beginning with today, the clerks will again have clean towels, ice and other comforts supplied at public expense These have been curtailed for three months owing to the unexpected drafts which de

pleted the contingent exchequer.

A proviso introduced under the heading of "general expenses" works a great retief to the accounting officers. For seven-teen years past there have been accomulating small balances against the District Commissioners, the vouchers for which could not be audited. They were for strictly legal transactions and for legitimate expenditures, but, owing to some technica informality, the claims could not be allowed. To get these matters straight on the books it was provided by Congress that the accounting officers of the Treasury are authorized to credit the accounts of the ex-Boards of Commissioners with all dis-bursements and expenditures, not exceedsuspended or disallowed in settlement of heir accounts, wherein it shall satisfactorily appear that the money was paid in good faith for goods sold and delivered. work and labor done, materials furnished or services actually rendered for the benefit of the District."

OTHER ITEMS IN THE BILL.

This covered the case, and the books will now be squared. Collection of fees at the public markets for any service whatever, in addition to the salaries authorized, is, dating from today, an absolute custom. All such fees, including rents and other items of income,

As has been already stated in The Times two District departments, whose pay rolls have been beretofore reckoned on the per diem plan, will, from July 1, be carried on the annual roll. These are the street and alley cleuning department and the special assessment division. The transfers have

Jost been made. The foregoing embraces the most impor The foregoing embraces the most impor-tant of the new pravisions, and some of the regular items, to be found in the appropria-tion bill. In addition, there were many enactments in which the public is interested, among which may be included the bill to regulate the practice of medicine and sur-gery; the bill to regulate the medical col-leges of the District, and others with which the readers of The Fines are already fa-miliar, and all of which will be operative from and after the first day of the new fiscal year.
